ALEXANDRE MARCHISIO

Business Developer · Sales and AI projects

Based in Tbilisi, Georgia · Native French, fluent English (C1)

alexandre.marchisio@gmail.com | +33 6 09 04 28 97 (WhatsApp) | linkedin.com/in/alexandremarchisio

I learned to sell by selling my own services: in 2023, corporate events to Sephora, Swarovski and Vivendi; in 2026, AI shopping-advisor and customer-service assistants sold to Morocco's #1 online beauty retailer, from first meeting to go-live. Two years of financial-markets training and trading on my own account (AMF certification, CFA Level I candidate): trading led me to vibe-code my own tools, which I then adapted for prospecting. I live in Tbilisi and intend to stay: I am looking for a business development or sales role in Georgia, or AI automation projects for local companies.

EXPERIENCE

Freelance AI automation consultant (sales and delivery) — Tbilisi — May 2026 – present

- Beautymarket, Morocco's #1 online beauty and pharmacy retailer (1M monthly visitors)
  - Automated their whole customer service: 60% of 15,000 daily customer messages handled without a human, live since August 2026.
  - Signed a contract worth over €10,000 with management, delivered with a developer: an AI shopping advisor on the site and automated customer service.
- A partner at a large independent consulting firm
  - Smart prospecting CRM, sold after a one-hour workshop, delivered in one month and invoiced: fed by his emails and prospects, it tracks their LinkedIn posts and job changes (several dozen people a day), spots the assignments to pitch and drafts the messages.

Independent trader and trading-tool builder — 2024 – 2026

- Traded options and calendar spreads on precious metals (commodities) and indices; managed risk: position sizing, maximum drawdown, Greeks.
- Built my first tools with AI: Python strategy dashboards, backtests and simulations in Python and Pine Script.
- Discovered agentic AI there, before offering it to businesses as a freelancer.

Founder and Managing Director, L'Atelier du Mocktail, corporate mocktail workshops and events — Paris — 2023 – March 2024

- Sold about ten events at €2,500 on average, notably to Sephora (LVMH), Swarovski, Fusalp and Vivendi.
- Ran the full sales cycle under my own brand: prospecting, pitching, negotiation, delivery, repeat business.
- Ran on-site events and webinars end to end: logistics, staffing and on-the-day delivery.

Communications assistant (six-month internship), VP Strat, crisis communications agency — Paris — 2022

EDUCATION

IÉSEG School of Management, Master in Entrepreneurship — Paris — 2019 – 2024

- Courses mostly taught in English; exchange semester at Almaty Management University (Kazakhstan).

CFA Level I candidate (sat the exam in 2025); derivatives and options training, 300 h — 2025

AMF certification (French financial markets authority)

SKILLS

Sales	full sales cycle, discovery, demos, proposals, negotiation, closing, upselling, repeat business; CRM (Twenty, open-source) and email/LinkedIn sequences
